Useful Information for Using Your New ebooks

You are receiving your ebook in two formats: mobi (for Kindle and Kindle apps) and epub (for most others). In order to access these files, you will need to unzip the attached files. You can do so by saving the zipped file to your computer, and then right clicking on the file and choosing "Extract" or "Extract all".

Instructions for mobi users: follow this link on information on how to send this ebook directly to your Kindle or Kindle app.

In order to install the book on your Kindle from your computer, connect your Kindle to the computer using an appropriate USB cable. On Windows systems, once it is connected, navigate to "My Computer" and click on the drive labeled "Kindle". Then open up the folder named "documents" and place the mobi file in this directory. Once you have done this, your new ebook is ready to read!

Instructions for epub users: Use of your epub file will vary depending on the device, system, and app you are using. Please refer to the instruction for you app in order to use this file. Below are instruction for some common devices.
